

# HOUSE & HOMES

A GUIDE FOR ALL YOUR HOUSE & HOME REQUIREMENTS

## Noelle Interiors, Tullamore

Many of us are tired of our traditional schemes but are nervous to update to new modern schemes that will date quickly. In today's economic climate we have to be wise about how we spend our money and when choosing a decoration scheme for our home we need something that will last the test of time. Traditional schemes are always a safe bet but if you would like to be a bit more adventurous you can go for a more modern look without worrying about it dating.

The backdrops of many modern schemes at the moment are using more modern colours such as beige,

grey or taupe. When selecting the scheme for the room choose one of these colours and use different tones of the one colour for the walls, floor and furniture. Then to create a little drama try using splashes of yellows or pinks, greens or purples in accessories like cushions, rugs, wallpaper, flowers or pictures. It's very important in a scheme like this to use different textures to create more depth and interest, such as velvet furniture, silk curtains, textured wool carpet with tweed chair and fur cushions. A traditional couch covered in plain grey velvet fabric with bold patterned cushions

in the accent colour will give it a fresh modern look. Pick a main wall or the fireplace recesses to wallpaper in the big patterns with the accent colour. This can give even the most traditional backdrop a sleek modern feel. Don't overdo the accessories; this could make the scheme feel disconnected. A few key items like the cushions, wallpaper and candles, or pictures, lamp shades and a rug, all with good splashes of the accent colour. When you tire of this accent colour, these items can be easily and cheaply changed.
